<sup>^</sup>Investment in Debt and Money Market instruments with residual maturity upto 91 days only.

Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure. SEBI vide letter dated November 3, 2021 has clarified that Cash Equivalent shall consist of Government Securities, T-Bills and Repo on Government Securities having residual maturity of less than 91 days.

The Scheme retains the flexibility to invest across all the securities in the debt and Money Market Instruments which has maturity upto 91 days.

The portfolio of the Scheme will comply with the additional investment restrictions in accordance with SEBI Master Circular for Mutual Funds dated June 27, 2024.

- (i) The Scheme shall make investment in/purchase debt and money market securities with maturity of upto 91 days only.
- (ii) In case of securities with put and call options (daily or otherwise) the residual maturity shall not be greater than 91 days.
- (iii) In case of securities where the principal is to be repaid in a single payout, the maturity of the securities shall mean residual maturity. In case the principal is to be repaid in more than one payout then the maturity of the securities shall be calculated on the basis of weighted average maturity of the security.
- (iv) In case the maturity of the security falls on a Non Business Day, then settlement of securities will take place on the next Business Day

Pursuant to SEBI Master Circular for Mutual Funds dated June 27, 2024 read with AMFI Best Practices Guidelines circular ref. no. 135/BP/93/2021-22 dated July 24, 2021, the Scheme shall hold- (i) at least 20% of its net assets in liquid assets; OR (ii) liquid assets basis Liquidity Ratio based on 30 - day Redemption at Risk (i.e LR – RaR), whichever is higher. For this purpose, “liquid assets” shall include Cash, Government Securities, T-bills and Repo on Government Securities. For ensuring liquidity the scheme will undertake the investment in liquid assets as per SEBI (Mutual Funds) Regulations, 1996.

In addition to the above, the Scheme shall also maintain the Liquidity ratio based on 30-day Conditional Redemption at Risk (LR-CRaR) in ‘eligible assets’ for LR-CRaR, in accordance with the guidelines / computation methodology (including definition of eligible assets for this purpose), as provided in the AMFI Best Practices Guidelines circular dated July 24, 2021.

It shall be ensured that the liquid assets / eligible assets are maintained to the extent of the LR-RaR and LR-CRaR ratios. In case, the exposure in such liquid assets / eligible assets falls below the prescribed threshold levels of net assets of the Scheme, the AMC shall ensure that the LR-RaR and LR-CRaR ratios are restored to 100% of the required level(s) by ensuring that the net inflows (through net subscription/accruals/ maturity & sale proceeds) into the Scheme are used for restoring the ratios before making any new purchases outside 'Liquid Assets / Eligible Assets' as specified in the above referred circular(s).

The Scheme may invest in other scheme(s) under the same AMC or any other mutual fund without charging any fees, provided that aggregate inter-scheme investment made by all Schemes under the same AMC or in Schemes under the management of any other asset management shall not exceed 5% of the net asset value of the Mutual Fund. Further, the Scheme shall not invest in any fund of funds scheme.

Investment in Fixed Income Derivatives shall be upto 50% of net assets. The Scheme shall invest in repo in Corporate Bond repo upto 10% of the net assets of the scheme which has maturity upto 91 days.

The scheme shall engage in securities lending subject a maximum of 20% and 5% for a single counter party.

The Scheme shall invest in repo in Corporate debt securities (including listed AA and above rated corporate debt securities and Commercial Papers (CPs) and Certificate of Deposits (CDs)) upto 10% of the net assets of the scheme or as permitted by extant SEBI regulation.

The scheme will not invest in units of REIT and InvIT.

The scheme will not invest in Overseas securities.

The scheme will not invest in securitized debt instrument.

As per the provisions of SEBI Master Circular for Mutual Funds dated June 27, 2024, the scheme will invest 25 bps of Assets Under Management (AUM) in the units of Corporate Debt Market Development Fund (CDMDF). Contribution made by scheme in CDMDF, including the appreciations on the same, if any, shall be locked-in till winding up of the scheme. Further, as per SEBI Master Circular for Mutual Funds dated June 27, 2024, the investment in units of CDMDF shall be excluded from base of net assets for calculation of asset allocation limits of mutual fund schemes in terms of Part IV of Chapter 2 on 'Categorization and Rationalization of Mutual Fund Schemes' of Master Circular for Mutual Funds dated June 27, 2024.

The Scheme may undertake (i) repo/reverse repo transactions in Corporate Debt Securities; (ii) Credit Default Swaps, (ii) Short Selling and such other transactions in accordance with guidelines issued by SEBI from time to time. In addition to the instruments stated in the table above, the Scheme may enter into repos/reverse repos as may be permitted by RBI. From time to time, the Scheme may hold cash. A part of the net assets may be invested in the Tri-party Repos on Government securities or treasury bills (TREPS) or repo or in an alternative investment as may be provided by RBI to meet the liquidity requirements, subject to approval, if any.

The Scheme shall not invest in debt securities having structured obligations (SO rating) and/or credit enhancements (CE rating). However, debt securities with government guarantee shall be excluded from such restriction. The scheme will not invest in Equity & Equity related instruments and equity derivatives.

The scheme will not invest in instruments having special features as stated in SEBI circular no. SEBI/HO/IMD/DF4/CIR/P/2021/032 dated March 10, 2021, SEBI/HO/IMD/DF4/CIR/P/2021/034 dated March 22, 2021 as amended from time to time.

The cumulative gross exposure through debt, money market instruments, fixed income derivatives, repo transactions in corporate debt securities and such other securities/assets as may be permitted by the Board from time to time should not exceed 100% of the net assets of the scheme in accordance with SEBI Master Circular for Mutual Funds dated June 27, 2024.

In accordance with SEBI Master Circular for Mutual Funds dated June 27, 2024, in the event of asset allocation falling outside the limits specified in the asset allocation table mentioned above, due to passive breaches, the fund manager will review and rebalance the same within 30 business days from the date of such deviation. In case the portfolio is not rebalanced within the period of 30 business days, justification in writing for the same including efforts taken to rebalance the portfolio shall be placed before the Investment Committee. The Investment Committee, if so desires, can extend the timelines upto 60 business days from the date of completion of mandated rebalancing period.

In case the scheme is not rebalanced within the aforementioned mandate plus extended timelines:

- a. The AMC shall not be permitted to launch any new scheme till the time the portfolio is rebalanced.
- b. The AMC shall not levy any exit load, (if any), on the investor exiting the Scheme.

In case the AUM of the deviated portfolio is more than 10% of the AUM of the main portfolio of the scheme.

- i. The AMC shall immediately communicate the same to the investors of the scheme after the expiry of the mandated rebalancing period (i.e. 30 Business Days) through SMS and email/ letter including details of portfolio not rebalanced.
- ii. The AMC shall also immediately communicate to the investors through SMS and email/letter when the portfolio is rebalanced.
- iii. The AMC shall disclose scheme wise deviation of the portfolio (beyond aforesaid 10% limit) from the mandated asset allocation beyond 30 business days, on the AMC 's website i.e. [www.bajajamc.com](http://www.bajajamc.com).

	<p>The AMC shall also disclose any deviation from the mandated asset allocation to investors along with periodic portfolio disclosures as specified by SEBI from the date of lapse of mandated plus extended rebalancing timelines.</p> <p>All of the Scheme's assets will be invested in transferable securities. The corpus of the Scheme shall not in any manner be used in option trading, short selling or carry forward transactions as stipulated in SEBI Regulations and amended from time to time.</p> <p><b>Short term defensive consideration:</b> When the Fund Manager/s believes market or economic conditions are unfavourable for investors, the scheme may invest up to 100% of its assets in a temporary defensive manner by holding all or a substantial portion of its assets in cash, cash equivalents or other high quality short-term investments. Temporary defensive investments generally may include permitted money market instruments, TREPS/reverse repo, etc. Such changes in the investment pattern will be for short term and defensive considerations only which would be rebalanced to the above asset allocations within 30 calendar days from the date of deviation and in accordance with SEBI Master Circular for Mutual Funds dated June 27, 2024 and any other circulars issued there under, from time to time.</p>
<p><b>Investment Strategy</b></p>	<p>The Scheme shall be managed to deliver the stated investment objective of providing a level of income consistent with the preservation of capital, lower risk and high liquidity through investments made primarily in money market and debt securities with maturity of up to 91 days only.</p> <p>The Scheme aims to provide an investment vehicle to meet the needs of the Investors who want to deploy their funds for a short period of time. Therefore, money market instruments like CD/CP/T-bill will have predominant allocation in the Scheme for most of the times though other tactical allocation to other instruments will also be utilized depending on market scenarios. The predominant allocation will be to high rated securities only. This will also mean that apart from usual interest rate and credit risk in any portfolio, the Liquidity risk management will also be a dominant requirement in this Scheme. In order to manage Liquidity risk, apart from maintaining the regulatory level of cash and cash equivalents, the endeavour will be to manage liquidity in line with overall macroeconomic and debt market scenario along with understanding of possible inflows and outflows from the Scheme. The overall high credit quality, short maturity, regulatory cash &amp; cash equivalents and the maturity bucketing of different securities will play a big role in managing liquidity in an efficient way.</p> <p>The Credit Research Team will undertake evaluation of companies for any potential investment. There will be detailed bottom-up study of the financial performance and industry the company operates in. In addition to quantitative analysis, a qualitative analysis will also be undertaken to form an opinion on the corporate governance status of the company.</p>

	<p><b>Investment Philosophy &amp; Process:</b></p> <p>The scheme shall manage and operate its investment strategy within the inhouse framework of the <b>INQUBE</b> fund philosophy. The <b>INQUBE</b> fund management philosophy is based on first principles understanding of the market dynamics. The process at its core emanates from the studied realisation that fund alpha is an outcome of three edges namely the <b>I</b>nformation edge, the <b>Q</b>uantitative edge and the <b>B</b>ehavioural edge of the investment team. At its core, the INQUBE investment philosophy borrows from human nature and behavioral finance as a knowledge discipline.</p> <p>The maturity profile of debt instruments will be selected in accordance with the Fund Manager's view regarding market conditions, interest rate outlook, stability of rating and liquidity requirement. The fund management team will strive to maintain a consistent performance by maintaining a balance between safety, liquidity and returns aspects of various investments. Investment views/ decisions will consider parameters like prevailing interest rate scenario, quality of the security/ instrument, maturity profile of the instrument, liquidity of the security, growth prospects of the company/ industry, and other factors in the opinion of the fund management team.</p> <p>The fund management team may deploy various quantitative tools, indicators, data analytics etc. in different combinations from time to time to develop/validate/reassess/analyze the investment decisions.</p> <p><b>Portfolio Turnover</b></p> <p>Portfolio Turnover is defined as the lower of purchases and sales after reducing all subscriptions and redemptions and derivative transactions there from and calculated as a percentage of the average assets under management of the scheme during a specified period of time.</p> <p>The AMC's portfolio management style is conducive to a low portfolio turnover rate. However, the AMC will aim to take advantage of the opportunities that present themselves from time to time because of the inefficiencies in the securities markets. The AMC will endeavour to balance the increased cost on account of higher portfolio turnover with the benefits derived there from.</p> <p>Being a debt scheme portfolio turnover is not applicable.</p>
<p><b>Risk Profile of the Scheme</b></p>	<p><b>Scheme specific risk factors:</b></p> <ol style="list-style-type: none"> <li><b>1. <u>Risks associated with investing in fixed income:</u></b> <ul style="list-style-type: none"> <li>• <b>Market Risk:</b> The NAV of the scheme, to the extent invested in Debt and Money Market securities, will be affected by changes in the general level of interest rates. The NAV of the scheme is expected to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates.</li> </ul> </li> </ol>

- Liquidity Risk: Money market securities, while fairly liquid, lack a well-developed secondary market, which may restrict the selling ability of the scheme and may lead to the scheme incurring losses till the security is finally sold. The liquidity of a bond may change, depending on market conditions leading to changes in the liquidity premium attached to the price of the bond. At the time of selling the security, the security can become illiquid, leading to loss in value of the portfolio.
- Price Risk: Government securities where a fixed return is offered run price-risk like any other fixed income security. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates. The new level of interest rate is determined by the rates at which government raises new money and/or the price levels at which the market is already dealing in existing securities. This risk is not unique to Government Securities. It exists for all fixed income securities. However, Government Securities are unique in the sense that their credit risk generally remains zero. Therefore, their prices are influenced only by movement in interest rates in the financial system.
- Settlement risk: The inability of the scheme to make intended securities purchases due to settlement problems could cause the scheme to miss certain investment opportunities. By the same rationale, the inability to sell securities held in the scheme's portfolio due to the extraneous factors that may impact liquidity would result, at times, in potential losses in case of a subsequent decline in the value of securities held in the scheme's portfolio.
- Regulatory Risk: Changes in government policy in general and changes in tax benefits applicable to Mutual Funds may impact the returns to investors in the scheme.
- Reinvestment Risk: This risk refers to the interest rate levels at which cash flows received from the securities in the scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.
- Credit Risk: Investments in Debt Securities are subject to the risk of an issuer's inability to meet interest and principal payments on its obligations and market perception of the creditworthiness of the issuer.
- Risks associated with investment in unlisted securities: Subject to applicable Regulations, the scheme can invest in unlisted securities. These securities are subject to greater price fluctuations, less liquidity and greater risk than the listed securities. Except for any security of an associate or group company, the scheme has the power to invest in securities which are not listed on a stock exchange ("unlisted Securities") which in general are subject to greater price fluctuations, less liquidity and greater risk than those which are traded in the open market. Unlisted securities may lack a liquid secondary market and there can be no assurance that the Scheme will realise their investments in unlisted securities at a fair value.

- Different types of fixed income securities in which the scheme would invest as given in the Scheme Information Document carry different levels and types of risk. Accordingly, the scheme risk may increase or decrease depending upon its investment pattern. e.g. corporate bonds carry a higher level of risk than Government securities. Further even among corporate bonds, bonds, which are AAA rated, are comparatively less risky than bonds, which are AA rated. AA rated corporate bonds are comparatively less risky when compared with A rated corporate bonds.
- The AMC may, considering the overall level of risk of the portfolio, invest in lower rated securities offering higher yields as well as zero coupon securities that offer attractive yields. This may increase the absolute level of risk of the portfolio.
- As zero coupon securities does not provide periodic interest payments to the holder of the security, these securities are more sensitive to changes in interest rates. Therefore, the interest rate risk of zero coupon securities is higher. The AMC may choose to invest in zero coupon securities that offer attractive yields. This may increase the risk of the portfolio.
- The scheme at times may receive large number of redemption requests leading to an asset-liability mismatch and therefore requiring the AMC to make a distress sale of the securities leading to realignment of the portfolio and consequently resulting in investment in lower yield instruments.
- Basis Risk: Basis risk arises due to a difference in the price movement of the derivative vis-à-vis that of the security being hedged.
- Spread Risk: In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. In the life of the security, this spread may move adversely leading to loss in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security.
- Counterparty Risk: This is the risk of failure of counterparty to a transaction to deliver securities against consideration received or to pay consideration against securities delivered, in full or in part or as per the agreed specification. There could be losses to the Scheme in case of a counterparty default.
- Duration Risk: Duration risk refers to the movement in price of the underlying invested money market / debt instruments due to movement/change in interest rates over different durations of maturity of instruments. In a portfolio of debt assets, the duration risk is measured by the average duration of the portfolio. Duration, expressed in years, is used as a measure of the sensitivity of the fixed income instrument to a change in interest rates. Usually, individual duration of fixed income instruments in the portfolio is calculated and the portfolio duration is weighted average of such individual instrument duration. A longer portfolio duration is associated with greater price fluctuations. A rise in interest rates could normally lead to decrease in prices and generally negatively affects portfolios having longer duration vis-a-vis portfolios having shorter duration. A fall in interest rate generally benefits portfolio having longer duration. A

longer duration portfolio is also generally associated with greater volatility vis-a-vis a shorter duration portfolio.

- **Sovereign Risk:** Sovereign risk is the likelihood that a Government will default on its loan obligation by failing to meet its principal payments or interest. It comes in different forms and may result in losses to investors in addition to negative political consequences. The Central Government of a country is the issuer of the local currency in that country. The Government (Central / State) raises money to meet its capital and revenue expenditure by issuing debt or discounted securities. Since payment of interest and principal amount has a sovereign status implying no default, such securities are known as securities with sovereign credit. For domestic borrowers and lenders, the credit risk on such sovereign credit is minimal, even lower than a security with “AAA” rating and hence commands a yield, which is lower than a yield on “AAA” security.

**Applicable NAV (after the scheme opens for subscriptions and redemptions )**

For Subscription:

1. In respect of valid application received upto 1.30 p.m. on a business day at the official point of acceptance and where the funds for the entire amount of subscription/purchase as per the application/ Switch-in request are credited to the bank account of the Liquid Scheme before the cut-off time i.e. available for utilization before the cut-off time – the closing NAV of the day immediately preceding the day of receipt of application shall be applicable;
2. In respect of valid application received after 1.30 p.m. on a business day at the official point of acceptance and where the funds for the entire amount of subscription/purchase as per the application / Switch-in request are credited to the bank account of the Liquid Scheme on the same day i.e. available for utilization on the same day - the closing NAV of the day immediately preceding the next Business Day shall be applicable; and
3. Irrespective of the time of receipt of application at the official point of acceptance, where the funds for the entire amount of subscription/purchase as per the application are not credited to the bank account of the Liquid Scheme before the cut-off time i.e. not available for utilization before the cut-off time - the closing NAV of the day immediately preceding the day on which the funds are available for utilization shall be applicable

For Switch - in from other Schemes of Bajaj Finserv Mutual Fund:

- i. Application for switch-in must be received before the applicable cut-off time.
- ii. Funds for the entire amount of subscription/purchase as per the switch-in request are credited to the bank account of the switch-in liquid scheme before the cut-off time.
- iii. The funds are available for utilization before the cut-off time by the switch-in scheme.

To clarify, for investments through systematic investment routes such as Systematic Investment Plans (SIP), Transfer of Income Distribution cum Capital Withdrawal (IDCW) Plan facility, etc the units will be allotted as per the closing NAV of the day on which the funds are available for utilization by the Target Scheme irrespective of the installment date of the SIP, or record date of Dividend etc.

While the AMC will endeavour to deposit the payment instruments accompanying investment application submitted to it with its bank expeditiously, it shall not be liable for delay in realization of funds on account of factors beyond its control such as clearing/settlement cycles of the banks.

Since different payment modes have different settlement cycles including electronic transactions (as per arrangements with Payment Aggregators/Banks/Exchanges etc), it may happen that the investor's account is debited, but the money is not credited within cut-off time on the

	<p>same date to the Scheme's bank account, leading to a gap/delay in Unit allotment. Investors are therefore urged to use the most efficient electronic payment modes to avoid delays in realization of funds and consequently in Unit allotment.</p> <p>For Redemptions including switch-outs</p> <p>i. In respect of valid applications received upto 3.00 p.m. on a Business Day which is followed by a Business Day, same Business Day's closing NAV shall be applicable.</p> <p>ii. **Load Structure**

Exit Load is an amount which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website at link: <https://www.bajajamc.com/sid-disclosure> or may call at toll free no. 18003093900 or your distributor.

Type of Load	Load chargeable (as %age of NAV)	
Entry Load*	Nil	
Exit	<b>Units redeemed/switched-out within “X” days from the date of allotment</b>	<b>Exit load as a % of redemption proceeds</b>
	Day 1 (refer note 1 below)	0.0070%
	Day 2	0.0065%
	Day 3	0.0060%
	Day 4	0.0055%
	Day 5	0.0050%
	Day 6	0.0045%
	Day 7 onwards	Nil
	<p>Note 1: For the purpose of levying exit load, if subscription (application &amp; funds) is received within cut-off time on a day, Day 1 shall be considered to be the same day, else the day after the date of allotment of units shall be considered as Day 1.</p> <p>The Scheme will not levy exit load in case the timelines for rebalancing portfolio as stated in SEBI Master Circular for Mutual Funds dated June 27, 2024 is not complied with.</p>	

\*In accordance with the requirements specified by the SEBI Master Circular for Mutual Funds dated June 27, 2024, no entry load will be charged for subscription /additional subscription /switches accepted by the Mutual Fund. Similarly, no entry load will be charged with respect to applications for registrations under the SIP/STP accepted by the Mutual Fund. For the purpose of charging of exit load, units would be considered on First in First out (FIFO) basis. Any imposition or enhancement of exit load shall be applicable only on prospective investments.

In case of redemption/switch undertaken in excess of 25% holding of an investor on account of compliance with the requirements of SEBI Master Circular for Mutual Funds dated June 27, 2024, shall not be subject to exit load imposed in the scheme.

The upfront commission on investment made by the investor, if any, shall be paid to the ARN Holder (AMFI registered distributor) directly by the investor, based on the investor’s assessment of various factors including service rendered by the ARN Holder.

Exit load (if any) charged to the unitholders by the Mutual Fund on redemption (including switch-out) of units shall be credited to the respective scheme net of Goods & Services Tax.

Goods & Services Tax on exit load, if any, shall be paid out of the exit load proceeds.

Exit Load for switches within the Scheme:-

- a) Where the investments were routed through a distributor (i.e. made with distributor code), any Switch of Units from the Regular Plan to Direct Plan of a Scheme shall be subject to applicable exit load, if any. However, any subsequent switch – out or redemption of such investments from the Direct Plan will not be subject to any exit load;
- b) Where investments were made directly i.e. without any distributor code, exit load will not be levied on switch of Units from Regular Plan to Direct Plan of that Scheme. However, any subsequent switch-out or redemption will be subject to exit load applicable from the original date of investment;
- c) No exit load shall be levied in case of switch of Units from Direct Plan to Regular Plan of a Scheme. However, any subsequent switch-out or redemption of such investment from the Regular Plan shall be subject to exit load based on the original date of investment in the Direct Plan.

The AMC/Trustee reserves the right to change / modify the Load structure of the Scheme, subject to maximum limits as prescribed under the Regulations. However, the Redemption /Repurchase Price will not be lower than 95% of the NAV.

Load on bonus/ re-investment of Income Distribution cum capital withdrawal units: In terms SEBI Master Circular for Mutual Funds dated June 27, 2024, no entry and exit load shall be charged on bonus units or units allotted on reinvestment of Income Distribution cum capital withdrawal.

The investor is requested to check the prevailing load structure of the scheme before investing.

In case of changes to load structure, the AMC would endeavor to do the following:

1. An addendum would be attached to the SID and Key Information Memorandum (KIM). The same may be circulated to brokers/distributors so that the same can be attached to all SID and abridged SID in stock. Further the addendum would be sent along with a newsletter to unitholders immediately after the changes.
2. Arrangement would be made to display the changes in the SID in the form of a notice in all the official point of acceptance of transactions and distributor's/broker's office.
3. The introduction of the exit load along with the details may be stamped in the acknowledgement slip issued to the investors on submission of the application form and may also be disclosed in the statement of accounts issued after the introduction of such load.

	4. A public notice shall be provided on the website in case of changes undertaken to the exit load.

SEBI/HO/IMD/IMD-SEC3/P/OW/2023/5823/1 dated February 24, 2023 and AMFI vide letter no. 35P/MEM-COR/85/2022-23 dated March 02, 2023 has advised AMCs to keep B-30 incentive in abeyance till AMCs put in place effective controls. Accordingly, applicability of this expense ratio will be subject to any further communication issued by SEBI / AMFI in this regard.

#As permitted under the Regulation 52 of SEBI (MF) Regulations, 1996 and pursuant to SEBI Master Circular for Mutual Funds dated June 27, 2024.

&In terms of SEBI Master Circular for Mutual Funds dated June 27, 2024, the AMC / Mutual Fund shall annually set apart at least 2 basis points (i.e. 0.02%) on daily net assets of the scheme within the maximum limit of Total Expense Ratio as per Regulation 52 of the SEBI (MF) Regulations for investor education and awareness initiatives.

%Brokerage and transaction costs incurred for the execution of trades and included in the cost of investment, not exceeding 0.12% of the value of trades of cash market transactions and 0.05% of the value of trades of derivative market transactions. It is hereby clarified that the brokerage and transaction costs incurred for the execution of trades may be capitalized to the extent of 0.12% of the value of trades of cash market transactions and 0.05% of the value of trades of derivative market transactions. Any payment towards brokerage and transaction costs (including Goods & Services Tax, if any) incurred for the execution of trades, over and above the said 0.12% for cash market transactions and 0.05% of the value of trades of derivative market transactions may be charged to the scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under Regulation 52 of the SEBI (MF) Regulations.

The expense of 30 bps shall be charged if the new inflows from retail investors from B30 cities as specified from time to time are at least -

(i) 30% of gross new inflows from retail investors in the scheme, or; (ii) 15% of the average assets under management (year to date) of the scheme, whichever is higher:

Provided that if inflows from retail investors from B30 cities is less than the higher of subclause (i) or sub- clause (ii), such expenses on daily net assets of the scheme shall be charged on proportionate basis.

Provided further that expenses charged under this clause shall be utilized for distribution expenses incurred for bringing inflows from retail investors from B30 cities.

Provided further that amount incurred as expense on account of inflows from retail investors from B30 cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment.

In case inflows from retail investors from beyond top 30 cities is less than the higher of (i) or (ii) above, additional TER on daily net assets of the scheme shall be charged as follows:

Daily net assets X 30 basis points X new inflows from individuals beyond top 30 cities

365\* X Higher of (i) or (ii) above
