The Margin may be placed in the form of such securities / instruments / deposits as may be permitted/eligible to be placed as margin from the assets of the Scheme. The securities / instruments / deposits so placed as margin shall be classified under the applicable category of assets for the purposes of asset allocation.

Any transactions undertaken in the portfolio of the Scheme in order to meet the redemption and subscription obligations shall be done while ensuring that post such transactions replication of the portfolio with the index is maintained at all points of time.

The Scheme would adhere with the requirements stipulated in SEBI Master Circular for Mutual Funds dated June 27, 2024 and other SEBI Guidelines/Circulars issued from time to time.

Portfolio Replications

The Scheme shall replicate the underlying debt index subject to the requirements as specified under clause 3.5.2.6 of SEBI Master Circular for Mutual Funds dated June 27, 2024 and other SEBI Guidelines/Circulars issued from time to time.

Post any transactions undertaken in the scheme portfolio, in order to meet the redemption and subscription obligations, it shall be ensured that replication of the portfolio with the index is maintained at all points of time, subject to permissible deviations.

Change in Investment Pattern

Subject to the Regulations, the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. It must be clearly understood that the percentages stated above are only indicative and not absolute and that they can vary substantially depending upon the perception of the Investment Manager, the intention being at all times to seek to protect the interests of the Unit holders. Such changes in the investment pattern will be for short term and defensive considerations.

Provided that any change in the Underlying Index shall be effected only in accordance with the provisions of sub regulation (15A) of Regulation 18 of the Regulations, as detailed later in this document.

Portfolio Rebalancing

In case of change in constituents of the index due to periodic review, the portfolio of the Scheme shall be rebalanced within 7 calendar days or such timeline as may be prescribed by SEBI from time to time.

Subject to the Regulations, the asset allocation pattern indicated above for the Scheme may change from time to time, keeping in view market conditions, applicable regulations and political and economic factors or for short durations, part of the corpus may be pending for deployment in equities considering the market conditions, special events, corporate events (like declaration of dividend), etc.

In the event that the asset allocation of the Scheme should deviate from the ranges as noted in the asset allocation table, then the portfolio of the Scheme will be rebalanced by the Fund Manager to the position indicated in the asset allocation table above. Such changes in the asset allocation will be for short term and defensive considerations. In case of deviation, if any, from the asset allocation pattern, the AMC shall rebalance the portfolio within a period of 7 calendar days.

	Tracking Error: The Scheme will disclose the tracking error based on past one year rolling data, on a daily basis, on the website of AMC and AMFI. In case the Scheme has been in existence for a period of less than one year, the annualized standard deviation shall be calculated based on available data. Tracking Difference: Further, the AMC would monitor that the annualized tracking difference averaged over one year period does not exceed 1.25%. In case the average annualized tracking difference over one year period for the Scheme is higher than 1.25%, the same shall be brought to the notice of trustees with corrective actions taken by the AMC, if any. The annualized difference of daily returns between the index and the NAV of the Fund shall be disclosed on the website of the AMC and AMFI, on a monthly basis.
Investment Strategy	The scheme will invest predominantly in Tri-Party Repos on Government Securities or Treasury Bills (TREPS). The Scheme may also invest in Liquid Scheme(s) & other money market instruments, in compliance with regulations to meet liquidity and expense requirements. The Scheme shall endeavour to replicate the index. In case the Scheme is not able to replicate the index the Fund Manager will invest subject to provisions laid down under SEBI Master Circular for Mutual Funds dated June 27, 2024, as amended from time to time. The performance of the Scheme may not be commensurate with the performance of the underlying index on any given day or over any given period. Such variations are commonly referred to as the tracking error. The scheme intends to maintain a low tracking error by closely aligning the portfolio in line with the index. Though endeavour will be made to achieve the objective of the Scheme, the AMC/Sponsors/ Trustee do not guarantee that the investment objective of the Scheme will be achieved. No guaranteed returns are being offered under the Scheme. Investment Process The Scheme will track the Underlying Index and is a passively managed scheme. The investment Decisions will be determined as per the Underlying Index. In case of any change in the index due to corporate actions or change in the constituents of the Underlying Index (as communicated by the Index Service Provider), relevant investment decisions will be determined considering the composition of the Underlying Index. The Investment decision of the Fund will be carried out by the designated Fund Manager.

	Portfolio Turnover Portfolio Turnover is a term used to measure the volume of trading that occurs in a Scheme's portfolio during a given time period. The scheme being a passively managed open-ended exchange traded fund, it is expected that there would be a number of subscriptions and redemptions on a daily basis. Hence, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio. Generally, turnover will depend upon the extent of purchase and redemption of units and the need to rebalance the portfolio on account of change in the composition, if any, and corporate actions of securities included in the Index. The Scheme has no specific target relating to portfolio turnover. The effect of higher portfolio turnover could be higher brokerage and transaction costs. Portfolio Turnover Ratio: Not Applicable
Risk Profile of the Scheme	Scheme specific risk factors: The Scheme is subject to the specific risks that may adversely affect the Scheme's NAV, return and / or ability to meet its investment objective. The specific risk factors related to the Scheme include, but are not limited to the following: 1. <u>Risks associated with Exchange Traded Schemes:</u> a) Passive Investments: - As the Scheme proposes to invest not less than 95% of the net assets in the securities of the Underlying Index in the same proportion, the Scheme will not be actively managed. The Scheme may be affected by a general decline in the Indian markets relating to its Underlying Index. Performance of the Underlying Index will have a direct bearing on the performance of the Scheme. The Scheme invests in the securities included in its Underlying Index regardless of their investment merit. The AMC does not attempt to individually select stocks or to take defensive positions in declining markets. - The objective of NIFTY 1D Rate index is to measure the returns generated by market participants lending in the overnight market. The index uses "Tri-Party Repo on Government Securities or T-bills" overnight rate for computation of index values. NIFTY 1D Rate Index has been developed to measure the returns generated by market participants lending in the overnight market. The index uses "Triparty Repo Dealing System (TREPS)" overnight rate for computation of index values. - Further, it is pertinent to note that there is no element of research recommendations involved before the execution of trades in the Scheme. The decision of the Fund Manager to execute trades including rebalancing required will be purely driven by the inflows and outflows in the Scheme and composition of the Underlying Index.

b) Tracking Error Risk/Tracking Difference Risk:

Tracking error is the standard deviation of the difference in daily returns between the Scheme and the underlying index annualized over 1 year period.

Tracking Difference is the annualized difference of daily returns between the index and the NAV of the Scheme.

The performance of the Scheme may not be commensurate with the performance of the underlying index on any given day or over any given period. Such variations are commonly referred to as the tracking error. Tracking errors may result from a variety of factors including but not limited to:

- Any delay experienced in the purchase or sale of securities due to illiquidity of the market, settlement and realization of sale proceeds and the registration of any securities transferred.
- The underlying index reflects the prices of securities at close of business hours. However, the Fund may buy or sell the securities at different points of time during the trading session at the then prevailing prices which may not correspond to the closing prices on the exchange.
- The potential for trades to fail which may result in the Scheme not having acquired securities at a price necessary to track the index.
- Disinvestments to meet redemptions, recurring expenses, IDCW payouts etc.
- Due to timing of transactions either on NDS OM platforms or in open market
- Expenditure incurred by the Fund.

The AMC would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible.

The AMC would monitor the tracking difference of the Scheme on an ongoing basis and would seek to minimize tracking difference to the maximum extent possible. The annualized tracking difference averaged over one year period shall not exceed 1.25%.

c) Market Trading Risks:**i. Absence of Prior Active Market:**

Although the Scheme will be listed on NSE and/ or BSE, there can be no assurance that an active secondary market will develop or be maintained. Hence there could be a time when trading in the Units of the Scheme would be infrequent.

ii. Trading in Units may be halted:

Trading in the units of the Scheme on NSE/BSE may be halted because of market conditions or for reasons that in view of NSE/BSE or SEBI, trading in the units of the Scheme is not advisable.

	In addition, trading of the units of the Scheme are subject to trading halts caused by extraordinary market volatility and pursuant to stock exchange(s) and SEBI 'circuit filter' rules. There can be no assurance that the requirements of NSE/BSE necessary to maintain the listing of the units of the Scheme will continue to be met or will remain unchanged. iii. Units of the Scheme may trade at prices other than NAV: The units of the Scheme may trade above or below their NAV. The NAV of the Scheme will fluctuate with changes in the market value of the Scheme's holdings. The trading prices of the units of the Scheme will fluctuate in accordance with changes in their NAV as well as market supply and demand for the units of the Scheme. However, given that units of the Scheme can be created and redeemed in creation units directly with the Fund, it is expected that large discounts or premiums to the NAV of units of the Scheme will not sustain due to arbitrage opportunity available. iv. Regulatory Risk: Any changes in trading regulations by the Stock Exchange(s)/SEBI may affect the ability of market maker to arbitrage resulting into wider premium/ discount to NAV. d) Redemption Risk: Investors should note that even though the Scheme is an open ended Scheme, subscription/redemptions directly with the Fund would be limited to such investors who have the ability to subscribe/redeem the units of the Scheme in Creation Unit size (except in certain exception circumstances mentioned in this SID). Generally, these lot sizes are larger as compared to normal funds. Thus, even though this Scheme is open ended, due to large lot size, very few investors can directly subscribe and redeem the units of the Scheme. However, investors wishing to subscribe/redeem units in other than Creation Unit size can do so by buying/selling the same on NSE/BSE. e) The units will be issued only in demat form through depositories. The records of the depository are final with respect to the number of units available to the credit of unit holder. Settlement of trades, repurchase of units by the Mutual Fund depends up on the confirmations to be received from depository (ies) on which the Mutual Fund has no control. <u>Risks associated with investing in fixed income:</u> • Interest Rate risk: This risk is associated with movements in interest rate, which depend on various factors such as government borrowing, inflation, economic performance etc. The values of investments will appreciate/depreciate if the interest rates fall/rise. • Credit risk: This risk arises due to any uncertainty in counterparty's ability or willingness to meet its contractual obligations. This risk pertains to the risk of default of payment of principal and interest
--	--

	• Liquidity risk: The liquidity of a security may change depending on market conditions leading to changes in the liquidity premium linked to the price of the security. At the time of selling the security, the security can become illiquid leading to loss in the value of the portfolio For details on risk factors and risk mitigation measures, please refer SID.
Plans/Options	Currently, there are no plans under the Scheme. The Scheme will offer only Growth option. There will be no IDCW option under the Scheme. However, the Trustees reserve the right to introduce/ alter/ extinguish any of the plans/ options under the Scheme at a later date. For any change in plans/ options offered under the Scheme, the AMC shall publish a notice-cum-addendum for the information of the investors.

Applicable NAV (after the scheme opens for subscriptions and redemptions)	1. Minimum Application Amount/ Number of Units	On Stock Exchange(s): Investor can buy / sell units of the Scheme in round lot of 1 unit and in multiples thereof. Directly with the Mutual Fund: Market Maker can buy/sell units of the Scheme in Creation Unit Size viz. 100 units and in multiples thereof. An investor can buy / sell units on a continuous basis in the normal market segment of National Stock Exchange of India Limited (NSE)/ BSE Limited during the trading hours like any other publicly traded stock at prices which are quoted on NSE/BSE. These prices may be close to the actual NAV of the Scheme. There is no minimum investment, although units are to be purchased in lots of 1 unit. All direct transactions in units of the Scheme by MMs or other eligible investors with the AMC/the Fund shall be at intra-day NAV based on the actual execution price of the underlying portfolio. Any order placed for redemption or subscription directly with the AMC must be of greater than INR 25 Cr. The aforesaid threshold shall not be applicable for MMs and shall be periodically reviewed. An investor can buy/ sell units on a continuous basis in the normal market segment of National Stock Exchange of India Limited (NSE)/ BSE Limited or any other stock exchange where the Scheme will be listed, during the trading hours like any other publicly traded stock at prices which are quoted on the stock exchanges. These prices may be close to the actual NAV of the Scheme. There is no minimum investment, although units are to be purchased in lots of 1 (one) unit. The threshold of Rs. 25 crore for direct transaction in the units of the Scheme with the AMC. Investors can therefore transact in the units of the Scheme directly with the AMC in the respective creation unit size as applicable in the SID.

Load Structure

Exit Load is an amount which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website www.bajajamc.com or may call at (toll free no. 18003093900 or your distributor.

Type of Load	Load chargeable (as %age of NAV)
Entry Load*	Nil
Exit	Nil

*In accordance with the requirements specified by the SEBI Master Circular for Mutual Funds dated June 27, 2024, no entry load will be charged for subscription /additional subscription /switches accepted by the Mutual Fund. Similarly, no entry load will be charged with respect to applications for registrations under the SIP/STP accepted by the Mutual Fund. For the purpose of charging of exit load, units would be considered on First in First out (FIFO) basis. Any imposition or enhancement of exit load shall be applicable only on prospective investments.

In case of redemption/switch undertaken in excess of 25% holding of an investor on account of compliance with the requirements of SEBI Master Circular for Mutual Funds dated June 27, 2024, shall not be subject to exit load imposed in the scheme.

The upfront commission on investment made by the investor, if any, shall be paid to the ARN Holder (AMFI registered distributor) directly by the investor, based on the investor's assessment of various factors including service rendered by the ARN Holder.

Exit load (if any) charged to the unitholders by the Mutual Fund on redemption (including switch-out) of units shall be credited to the respective scheme net of Goods & Services Tax.

Goods & Services Tax on exit load, if any, shall be paid out of the exit load proceeds.

Exit Load for switches within the Scheme:-

- Where the investments were routed through a distributor (i.e. made with distributor code), any Switch of Units from the Regular Plan to Direct Plan of a Scheme shall be subject to applicable exit load, if any. However, any subsequent switch – out or redemption of such investments from the Direct Plan will not be subject to any exit load;
- Where investments were made directly i.e. without any distributor code, exit load will not be levied on switch of Units from Regular Plan to Direct Plan of that Scheme. However, any subsequent switch-out or redemption will be subject to exit load applicable from the original date of investment;
- No exit load shall be levied in case of switch of Units from Direct Plan to Regular Plan of a Scheme. However, any subsequent switch-out or redemption of such investment from the Regular Plan shall be subject to exit load based on the original date of investment in the Direct Plan.

	The AMC/Trustee reserves the right to change / modify the Load structure of the Scheme, subject to maximum limits as prescribed under the Regulations. However, the Redemption /Repurchase Price will not be lower than 95% of the NAV. Load on bonus/ re-investment of Income Distribution cum capital withdrawal units: In terms SEBI Master Circular for Mutual Funds dated June 27, 2024 no entry and exit load shall be charged on bonus units or units allotted on reinvestment of Income Distribution cum capital withdrawal. The Trustee / AMC reserves the right to change the load structure any time in future if they so deem fit on a prospective basis. The investor is requested to check the prevailing load structure of the scheme before investing. In case of changes to load structure, the AMC would endeavor to do the following: 1. An addendum would be attached to the SID and Key Information Memorandum (KIM). The same may be circulated to brokers/distributors so that the same can be attached to all SID and abridged SID in stock. Further the addendum would be sent along with a newsletter to unitholders immediately after the changes. 2. Arrangement would be made to display the changes in the SID in the form of a notice in all the official point of acceptance of transactions and distributor's/broker's office. 3. The introduction of the exit load along with the details may be stamped in the acknowledgement slip issued to the investors on submission of the application form and may also be disclosed in the statement of accounts issued after the introduction of such load. 4. A public notice shall be provided on the website in case of changes undertaken to the exit load.

The expense of 30 bps shall be charged if the new inflows from retail investors from B30 cities as specified from time to time are at least -

(i) 30% of gross new inflows from retail investors in the scheme, or; (ii) 15% of the average assets under management (year to date) of the scheme, whichever is higher:

Provided that if inflows from retail investors from B30 cities is less than the higher of subclause (i) or sub- clause (ii), such expenses on daily net assets of the scheme shall be charged on proportionate basis.

Provided further that expenses charged under this clause shall be utilized for distribution expenses incurred for bringing inflows from retail investors from B30 cities.

Provided further that amount incurred as expense on account of inflows from retail investors from B30 cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment.

In case inflows from retail investors from beyond top 30 cities is less than the higher of (i) or (ii) above, additional TER on daily net assets of the scheme shall be charged as follows:

Daily net assets X 30 basis points X new inflows from individuals beyond top 30 cities

365* X Higher of (i) or (ii) above

* 366, wherever applicable.

For the above purposes, 'B30 cities' shall be beyond Top 30 cities as at the end of previous financial year as communicated by AMFI. Retail investors would mean individual investors from whom inflows into the scheme would amount upto Rs. 2,00,000/- per transaction.
