Instruments	Indicative allocations (% of total assets)	
	Minimum	Maximum
Securities of companies constituting Nifty 50 Index (the Underlying Index)	95%	100%
Debt and money market instruments*	0%	5%

*Debt and money market instruments will include Government securities, Treasury Bills, Cash Management Bills, CBLO, Repo, Reverse Repo, TREPS, Certificate of Deposits (CDs), Commercial Paper (CPs) and any other securities / instruments as may be permitted by SEBI and RBI from time to time.

The net assets of the scheme will be invested in stocks constituting the Nifty 50 Index. This would be done by investing in all the stocks comprising the Nifty 50 Index in the same weightage that they represent in the Nifty 50 Index. Exposure in Equity Derivatives – up to 20% of Equity assets of the scheme for non-hedging purpose. Exposure to equity derivatives of the index or its constituent stocks may be undertaken when equity shares of the underlying index are unavailable or not available in sufficient quantities, or rebalancing in case of corporate actions as mentioned in the section ‘Change in Investment Pattern’. However, investment in derivatives will be for a temporary period on defensive considerations. The Scheme shall rebalance the portfolio in case of any deviation to the asset allocation. Such rebalancing shall be done within 7 calendar days from the date of such deviation. Investment in derivatives shall be made in accordance with the SEBI Master Circular for Mutual Funds dated June 27, 2024 and such other guidelines on derivatives as issued by SEBI from time to time. A small portion of the net assets will be invested in debt & money market instruments permitted by SEBI / RBI to meet the liquidity requirements of the scheme and for meeting margin money requirement for Nifty 50 index futures and/or futures of stocks belonging to the Nifty 50 Index.

Invest in stock lending shall be upto 20% of net assets. Further, the Scheme shall not deploy more than 5% of the Scheme’s net assets in securities lending through a single intermediary. These limits shall be applicable at the time of participating in the securities lending by the Scheme.

The Scheme shall invest in repo in Corporate debt securities (including listed AA and above rated corporate debt securities and Commercial Papers (CPs) and Certificate of Deposits (CDs)) up to 5% of total assets. The Scheme may engage in short selling of securities in accordance with the applicable guidelines / regulations.

The Scheme may invest in other scheme(s) under the same AMC or any other mutual fund without charging any fees, provided that aggregate inter-scheme investment made by all Schemes under the same AMC or in Schemes under the management of any other asset management shall not exceed 5% of the net asset value of the Mutual Fund. Further, the Scheme shall not invest in any fund of funds scheme.

For a sectoral/ thematic Index, no single stock shall have more than 35% weight in the index. For other than sectoral/ thematic indices, no single stock shall have more than 25% weight in the index. The weightage of the top three constituents of the index, cumulatively shall not be more than 65% of the Index. The individual constituent of the index shall have a trading frequency greater than or equal to 80% and an average impact cost of 1% or less over previous six months. <p>The underlying Fund i.e. Bajaj Finserv Nifty 50 ETF shall comply with the aforesaid portfolio concentration norms. Further, the Fund shall evaluate and ensure compliance to aforesaid norms at the end of every calendar quarter. The updated constituents of the underlying index have also been made available on the website of the Fund i.e. www.bajajamc.com.</p>			

Change in Investment Pattern

The Scheme, in general, will hold all the securities that comprise the underlying Index in the same proportion as the index.

Expectation is that, over a period of time, the tracking error of the Scheme relative to the performance of the Underlying Index will be relatively low. The AMC would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. Under normal market circumstances, such tracking error is not expected to exceed by 2% p.a. However, in case of events like, Income Distribution cum capital withdrawal issuance by constituent members, rights issuance by constituent members, corporate action, and market volatility during rebalancing of the portfolio following the rebalancing of the Underlying Basket, etc. or in abnormal market circumstances, the tracking error may exceed the above limits. Since the scheme is an exchange traded fund, it will endeavor that at no point of time the scheme will deviate from the index. In the event of the asset allocation falling outside the limits specified in the asset allocation table, the Fund Manager will rebalance the same within 7 calendar days.

In the interest of investors, the AMC reserves the right to change the above asset allocation pattern due to corporate action activity undertaken in the underlying securities. In the event of involuntary corporate action, the fund shall dispose the security not forming part of the Underlying index within 7 calendar days from the date of allotment/ listing.

Portfolio Rebalancing

As per SEBI Master Circular for Mutual Funds dated June 27, 2024, as amended from time to time, in case of change in constituents of the index due to periodic review, the portfolio of the scheme will be rebalanced within 7 calendar days.

Any transactions undertaken in the scheme portfolio of the Fund in order to meet the redemption and subscription obligations shall be done while ensuring that post such transactions replication of the portfolio with the index is maintained at all points of time.

Rebalancing of deviation due to short term defensive consideration

In the event of the asset allocation falling outside the limits specified in the asset allocation table, the Fund Manager will rebalance the same within 7 days. However, at all times the portfolio will adhere to the overall investment objectives of the Scheme. Any alteration in the investment pattern will be for short-term defensive consideration as per SEBI Master Circular for Mutual Funds dated June 27, 2024, the intention being at all times to protect the interests of the Unit Holders.

	<p>Disclosure Norms:</p> <p>I. Portfolio:</p> <p>A. The Fund shall disclose the following on monthly basis:</p> <ol style="list-style-type: none"> Name and exposure to top 7 issuers and stocks respectively as a percentage of NAV of the scheme Name and exposure to top 7 groups as a percentage of NAV of the scheme. Name and exposure to top 4 sectors as a percentage of NAV of the scheme. <p>B. Change in constituents of the index, if any, shall be disclosed on the AMC website on the day of change.</p> <p>II. Tracking Error:</p> <p>The Fund shall disclose the tracking error based on past one year rolling data, on a daily basis, on the website of AMC and AMFI.</p> <p>III. Tracking Difference:</p> <p>The annualized difference of daily returns between the index and the NAV of the Fund shall be disclosed on the website of the AMC and AMFI, on a monthly basis, for tenures 1 year, 3 year, 5 year, 10 year and since the date of allotment of units. In compliance with SEBI Circular No. SEBI/HO/IMD/PoD2/P/CIR/2024/183 dated December 31, 2024, Tracking Difference shall not exceed 50 bps (over and above actual TER charged). In case the same is not maintained, it shall be brought to the notice of trustees along with corrective actions taken by the AMC, if any.</p>
Investment Strategy	<p>The Scheme will be managed passively with investments in stocks in a proportion to the weights of these stocks in the Nifty 50 Index. The investment strategy would revolve around reducing the tracking error to the least possible through rebalancing of the portfolio, considering the change in weights of stocks in the index as well as the incremental collections/redemptions from the Scheme. The Scheme may invest in debt & money market instruments permitted by SEBI / RBI to meet the liquidity and expenses of the scheme.</p>
Risk Profile of the Scheme	<p>Scheme specific risk factors:</p> <p>1. <u>Scheme Specific Risk Factors for Bajaj Finserv Nifty 50 ETF:</u></p> <p>The Scheme is subject to the principal risks described below. Some or all of these risks may adversely affect Scheme's NAV, trading price, yield, total return and/or its ability to meet its objectives.</p> <p>Passive Investments</p> <p>The Scheme is not actively managed. The Scheme may be affected by a general decline in the Indian markets relating to its Underlying Index. The Scheme invests in the securities included in its Underlying Index regardless of their investment merit. The AMC does not attempt to individually select stocks or to take defensive positions in declining markets.</p>

2. Risks associated with investing in equities:

While securities that are listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges. The liquidity of the Schemes' investments is inherently restricted by trading volumes in the securities in which it invests.

The value of the Scheme's investments, may be affected generally by factors affecting securities markets, such as price and volume volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the Governments, taxation laws or any other appropriate authority policies and other political and economic developments which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets. Consequently, the NAV of the Units of the Scheme may fluctuate and can go up or down.

Trading volumes, settlement periods and transfer procedures may restrict the liquidity of these investments. Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. The inability of the Scheme's to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities.

The scheme will also be vulnerable to movements in the prices of securities invested by the scheme which again could have a material bearing on the overall returns from the scheme.

Market Risk

The Scheme's NAV will react to the stock market movements. The Investor could lose money over short periods due to fluctuation in the Scheme's NAV in response to factors such as economic and political developments, changes in interest rates and perceived trends in stock prices and market movements, and over longer periods during market downturns.

Market Trading Risks

- **Absence of Prior Active Market:** Although units of the Scheme are listed on the Exchange, there can be no assurance that an active secondary market will develop or be maintained.
- **Lack of Market Liquidity:** Trading in units of the Scheme on the Exchange may be halted because of market conditions or for reasons that in the view of the Market Authorities or SEBI, trading in units of the Scheme is not advisable. In addition, trading in units of the Scheme is subject to trading halts caused by extraordinary market volatility and pursuant to NSE/BSE and SEBI "circuit filter" rules. There can be no assurance that the requirements of the Market necessary to maintain the listing of units of the Scheme will continue to be met or will remain unchanged.
- **Units of the Scheme may trade at Prices other than NAV:** Units of the Scheme may trade above or below its NAV. The NAV of the Scheme will fluctuate with changes in the market value of Scheme's holdings. The trading prices of units of the Scheme will fluctuate in accordance with changes in their NAVs as well as market supply and demand of units of the

Scheme. However, given that units can be created and redeemed directly with the Fund if the subscription / redemption amount is greater than Rs. 25 cr., it is expected that large discounts or premiums to the NAVs of the Scheme will not sustain due to arbitrage possibility available.

- **Regulatory Risk:** Any changes in trading regulations by the Stock Exchange/s or SEBI may affect the ability of market maker to arbitrage resulting into wider premium/ discount to NAV. Although, the units are listed on NSE/BSE, the AMC and the Trustees will not be liable for delay in listing of Units of the Scheme on the stock exchanges / or due to connectivity problems with the depositories due to the occurrence of any event beyond their control.
- **Settlement Risk:** In certain cases, settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities as in certain cases, settlement periods may be extended significantly by unforeseen circumstances. Similarly, the inability to sell securities held in the Scheme portfolio may result, at times, in potential losses to the Scheme, and there can be a subsequent decline in the value of the securities held in the respective Scheme's portfolio.
- **Right to Limit Redemptions:** The Trustee, in the general interest of the Unit holders of the Scheme offered in this Document and keeping in view the unforeseen circumstances / unusual market conditions, may limit the total number of Units which can be redeemed on any Business Day. The same shall be in accordance with SEBI Master Circular for Mutual Funds dated June 27, 2024 with respect to Restriction on redemption in Mutual Funds.
- **Portfolio Concentration Risk:** To the extent that the Scheme may concentrate its investments in the securities of certain companies/ sectors, the Scheme will therefore be subject to the risks associated with such concentration. In addition, the Scheme may be exposed to higher levels of volatility and risk than would generally be the case in a more diverse fund portfolio of equity securities. Such risks may impact the Scheme to the extent that it invests in particular companies/sectors even in cases where the investment objective is more generic.
- **Volatility Risk** The equity markets and derivative markets are volatile and the value of securities, derivative contracts and other instruments correlated with the equity markets may fluctuate dramatically from day to day. This volatility may cause the value of investment in the Scheme to decrease.
- **Redemption Risk** All direct transactions in units of the Scheme by MMs/Aps or other eligible investors with the AMC/the Fund shall be at intra-day NAV based on the actual execution price of the underlying portfolio. Any order placed for redemption or subscription directly with the AMC must be of greater than Rs. 25 Cr. The aforesaid threshold shall not be applicable for Aps/MMs and shall be periodically reviewed. Investors can transact in the units of the Scheme directly with the AMC if the subscription amount is more than Rs. 25 Cr. In the respective creation unit size.

- **Passive Investments** – The Scheme is not actively managed. The Scheme may be affected by a general decline in the Indian markets relating to its Underlying Index. The Scheme invests in the securities included in its Underlying Index regardless of their investment merit. The AMC does not attempt to individually select stocks or to take defensive positions in declining markets.
- **Tracking Error and Tracking Difference Risk** – The AMC would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. Under normal circumstances, the AMC will endeavour that the tracking error of the Scheme does not exceed 2% per annum. However, this may vary due to various reasons mentioned below or any other reasons that may arise and particularly when the markets are very volatile.

Factors such as the fees and expenses of the Scheme, Corporate Actions, Cash balance, changes to the Underlying Index and regulatory policies may affect AMC's ability to achieve close correlation with the Underlying Index of respective Scheme. The Scheme's returns may therefore deviate from those of their Underlying Index. "Tracking Error" is defined as the standard deviation of the difference between daily returns of the index and the NAV of the respective Scheme. Tracking Difference" is the annualized difference of daily returns between the Index and the NAV of the scheme (difference between fund return and the index return). Tracking Error and Tracking difference may arise including but not limited to the following reasons:

- Expenditure incurred by the Scheme.
- The funds may not be invested at all times as it may keep a portion of the funds in cash to meet redemptions or for corporate actions of securities in the index.
- Any delay experienced in the purchase or sale of shares due to illiquidity of the market, settlement and realization of sale proceeds and the registration of any securities transferred and any delays in receiving cash and scrip dividends and resulting delays in reinvesting them
- The underlying index reflects the prices of securities at close of business hours. However, the Fund may buy or sell the securities at different points of time during the trading session at the then prevailing prices which may not correspond to the closing prices on the exchange.
- The potential for trades to fail which may result in the Scheme not having acquired shares at a price necessary to track the index.
- The holding of a cash position and accrued income prior to distribution and accrued expenses.
- Disinvestments to meet redemptions, recurring expenses, dividend payouts etc.
- Securities trading may halt temporarily due to circuit filters.
- Corporate actions such as rights, merger, change in constituents etc.
- Rounding off quantity of shares underlying the index.
- Index providers undertake a periodical review of the scrips that comprise the Underlying Index and may either remove or include new scrips. In such an event, the Scheme will endeavour to reallocate its portfolio but the available investment opportunity may not permit absolute mirroring immediately.

	<p>3. <u>Risks associated with investing in fixed income:</u></p> <ul style="list-style-type: none"> • Interest Rate risk: This risk is associated with movements in interest rate, which depend on various factors such as government borrowing, inflation, economic performance etc. The values of investments will appreciate/depreciate if the interest rates fall/rise. • Credit risk: This risk arises due to any uncertainty in counterparty's ability or willingness to meet its contractual obligations. This risk pertains to the risk of default of payment of principal and interest • Liquidity risk: The liquidity of a security may change depending on market conditions leading to changes in the liquidity premium linked to the price of the security. At the time of selling the security, the security can become illiquid leading to loss in the value of the portfolio <p>For details on risk factors and risk mitigation measures, please refer SID.</p>
Plans/Options	<p>Currently, there are no plans/ options under the Scheme. However, the Trustees reserve the right to introduce/ alter/ extinguish any of the option under the Scheme at a later date. For any change in plans/ options offered under the Scheme, the AMC shall publish a notice-cum-addendum for the information of the investors</p>
Applicable NAV (after the scheme opens for subscriptions and redemptions)	<p>The Scheme is Exchange Traded fund (ETF) and the units of the Scheme will be listed on the stock exchanges. In the interest of the investors/ unitholders, the operational processes of the Scheme with respect to all the provisions of "Uniform cut-off timings for applicability of Net Asset Value (NAV)" issued by SEBI from time to time shall stand modified.</p> <p>The Fund may allow subscription/redemption/switches (Switch-out) in 'Creation Unit' Size and in multiples thereof by Market Maker based on the Portfolio Deposit/equivalent amount of cash and Cash Component as defined by the Fund for that respective Business Day. Load Structure

Exit Load is an amount which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website www.bajajamc.com or may call at (toll free no. 18003093900 or your distributor.

Type of Load	Load chargeable (as %age of NAV)
Entry Load	Nil
Exit	Nil

In accordance with the requirements specified by the SEBI Master Circular for Mutual Funds dated June 27, 2024, no entry load will be charged for subscription /additional subscription accepted by the Mutual Fund.

In case of redemption/switch-out undertaken in excess of 25% holding of an investor on account of compliance with the requirements of SEBI Master Circular for Mutual Funds dated June 27, 2024 shall not be subject to exit load imposed in the scheme.

There will be no exit load for units sold through the secondary market on the NSE/BSE. Investors shall note that the brokerage on sales of the units of the scheme on the stock exchanges shall be borne by the investors.

Authorized Participant and Investor can redeem units directly with the fund at Applicable NAV based prices. Currently there is no exit load applicable for the said transactions.

However, during the process of creation/redemption there may be transaction costs and/or other incidental expenses (forming part of the Cash Component), which are liable to be borne by the investors/Authorized Participants.

- Investors can directly approach the AMC for redemption of units of the Scheme, for transaction upto INR 25 Cr. without any exit load, in case of the following scenarios:
- Traded price (closing price) of the ETF units is at discount of more than 1% to the day end NAV for 7 continuous trading days, or
- No quotes for such ETFs are available on stock exchange(s) for 3 consecutive trading days, or
- Total bid size on the exchange is less than half of creation unit size daily, averaged over a period of 7 consecutive trading days.

Under these circumstances, investors, as specified above and can redeem units of the Scheme directly with the Fund/the AMC without any exit load. The Fund/the AMC will track the aforesaid liquidity criteria and display it on its website viz., www.bajajamc.com if the same is triggered, no exit load would be applicable in such cases.

The investor is requested to check the prevailing load structure of the Scheme before investing. Any imposition or enhancement in the load shall be

	<p>applicable on prospective investments only. Units issued on reinvestment of IDCW shall not be subject to entry and exit load.</p> <p>Subject to the Regulations, the Trustee reserves the right to modify/alter the load structure on the Units subscribed/redeemed on any Business Day. At the time of changing the load structure, the AMC / Mutual Fund may adopt the following procedure:</p> <ul style="list-style-type: none"> (i) The addendum detailing the changes will be attached to Scheme Information Documents and key information memorandum. The addendum will be circulated to all the distributors/brokers so that the same can be attached to all Scheme Information Documents and key information memoranda already in stock. (ii) Arrangements will be made to display the addendum in the Scheme Information Document in the form of a notice in all the investor service centres and distributors/brokers office.
